### Clothing Closet

Offers gently used items ranging from shoes, clothing and accessories to small household items.

Every Tuesday

1:00 to 4:00

### FOODIESpace: Pancakebot

Learn to 3D print your breakfast using the PancakeBot. Use PancakePainter software to draw a design, then save and upload onto the PancakeBot. PancakeBot is a great example of S.T.E.A.M (Science Technology Engineering Art Math) principles. Learn about the Pancake-Bot, then watch the monthly design get printed. We will try at least one new design per event.

\*This is an introduction to 3D pancake printing. We will have other activity stations for you to explore while you wait your turn to use the software or print your design. There is not always enough time for everyone to see their design printed, and we only guarantee that we will try 1 new design per session in addition to our pre-made design.
